Thieves Hack Hole To Steal Narcotics

\$650 Cash Also Taken; Entry At Reese Store Gained Through Roof

Burglars hacked a hole in the roof of the Reese Drug store at the Belleme Village shopping center Monday night and escaped with about \$650 cash and a quantity of narcotic drugs.

A hole of about 1 by 1 1/2 feet was hewn in the roof through insulation over the storefront. As the burglars squeezed through, they knocked boxes down and stopped to ransack the area. Entry into the store was gained through an unlocked door from the storefront.

About \$250 in bills and change was taken from a cigar box in a drawer at the prescription counter, about \$300 in silver was taken from a metal box in a cabinet at the prescription counter, and an additional \$100 in silver was missing from a metal money box placed in the store room. A safe was moved out was not opened.

Narcotics taken from the prescription counter included a bottle of 50 to 75 diastil tablets, a patented drug derived from opium and possessing actions similar to morphine, a bottle of three bottles of 1164 milligram tablets of Demerol, a patented morphine substitute.

The burglars apparently escaped by climbing a step ladder to the top of a shelf under an electric drill. Entry was gained in position.

The burglary occurred between 10:30 p.m. Monday and 8 a.m. Tuesday, according to Clifford Feldlin, store manager.

Tools stolen

Albert Joyce, 2000 Bryan avenue, reported at 8 a.m. Tuesday to Granite City police that during the night a stainless steel tool box containing about 50 pieces of tools was stolen from his garage. Also missing was a six-inch saw and a quarter-inch electric drill. Entry was gained

Mayor To Veto Engineer Revision

30-Day Appointments Planned; Council Votes 10-5 For City Engineer

Council action Monday night with a 10-to-5 vote to revise engineering policies in Granite City to provide a full-time, registered city engineer, is to be vetoed by Mayor Davis, who said he will continue with the present system of hiring a consulting engineer even if he has to appoint the consultant every 30 days.

Mayor Davis accused the council of trying to usurp the authority of his office, adding that he was satisfied with the present arrangement and the work of the consulting engineer firm of David J. Johnston & Associates, East St. Louis, which also handles the city's motor fuel tax projects.

Supporters of the resolution stressed they were merely calling upon the mayor to carry out his duty under state and city laws and would press for compliance.

The resolution would permit the Finance and Street and Alley committees to interview qualified engineers and submit at least two names to the mayor by Feb. 1 and the Finance committee and comptroller would present by the same date a recommended salary for the engineer. It sets forth that the mayor is to make the appointment by Feb. 15, either from among the engineers recommended by the committees or a selection of his own choice.

Johnston Statement Read

Mayor Davis announced his intention to veto the resolution before the vote was taken. He also read a 3 1/2-page statement from Engineer Johnston stating that the city had been paying for the service during the Jan. 6 session by Alderman G. H. Sturgeon, chairman of the Street and Alley committee.

Neither Sternberg nor Engineer Johnston took part in the debate which was led by Alderman Walter Nonn.

Mayor Davis, in answer to a question from Alderman Samuel Whitmer, said he was not ready to present the consulting and motor fuel tax engineering contracts for 1964, but would submit them at a later date. Johnston's present motor fuel tax engineering contract with the city expired Jan. 1, and he also holds a \$3000-a-year consulting engineer contract with the city.

The resolution calls for the city to hire a full-time city engineer and eliminate the consulting engineer contract. Under state law the motor fuel tax engineering services cannot be handled by a city engineer.

Supporters of the resolution pointed out the city is large enough for the services of a qualified, registered city engineer on a full-time basis instead of operating with a consulting engineer.

Nonn attacked the resolution saying it was politically motivated by Sternberg. A point of order was called by Alderman

Schools May File Suit To Collect Protested Taxes

A friendly mandamus suit to compel County Treasurer George Musso to release impounded railroad taxes being held in escrow may be filed by school districts in the county, Wensel Brown, superintendent of schools, informed the Madison school board Tuesday night.

A committee of school administrators is trying to determine the cost of such litigation, he said, as the case could be taken to the Illinois Supreme Court and the school boards in the county would be informed of the costs before they would be asked to take definite action.

The money is in protested tax liens being held without payment for several years, and the school districts are demanding their share.

After tax settlement are reached in the courts, the railroads then could try to get their share of the money back from the school districts, Brown said.

The railroads are objecting to \$158,620 of Madison school taxes for a five-year period from 1958 to 1962 on the basis of assessments alone. The total figure for the county is \$143,342, while the total for the Granite City district is \$255,878 and for the Venice district is \$174,872.

At a recent meeting of superintendents in the county, Bob Cole of the Illinois Association of School Boards told the group he would write to presidents of railroads involved in an attempt to reach a settlement, Brown said, adding that the superintendents decided against waiting for results of this effort.

Meanwhile, the county clerk's office forwarded notices of tax objects on 1962 taxes from 12 railroads and from William Rader of North Venice. All of the districts are based on property valuations, and some railroads objected to the building fund and 1111's National Retirement Fund taxes.

The railroads are the North-Western, Pennsylvania, Rock Island, Southern, Wabash, Terminal, Big Four, New York, Chicago & St. Paul, Illinois Central and the C&STL.

Brown noted that this has been a long controversy between the county and that most of the railroads have not yet paid their taxes.

Trouble Is Seen For At-Large Bill In Senate Today

Francis Bows Out For State's Atty.; More County Filing

Terry Francis, Granite City attorney, bowed out this week as a Democratic candidate for state's attorney, and two Republicans filed petitions today for county offices.

Francis, 40, of Travis Street, of Alton for coroner and Lester J. Ogilvie of Alton for auditor. So far they are the only two GOP candidates to file for a county post. The filing period closes next Monday.

Tensions eased slightly today on the Democratic side as Miss Eulalia Holt, county clerk, announced that she was a candidate for becoming a candidate for clerk of the circuit court, the post now held by Willard Portell of Granite City.

There were strong rumors that the week would see the circuit clerk's post of one 11th of Madison did not file. Hilt, who was county clerk before the office was abolished under the new judicial system, had expressed an interest in the post but so far has not acted on it.

Statement By Francis

In announcing his withdrawal, Francis, long active in local county and state politics, said that he decided against trying for the state attorney post at this time as Joseph Bartley of Collinsville, chief assistant state attorney who is seeking the nomination, has received the endorsement of State's Attorney Dick H. Mudge.

"Generally I considered myself as one who could carry on in the tradition of Mudge," Francis said, "and I have devoted my political life in urging people to continue to continue through next week."

Convention Nomination

The House measure provides that candidates will be nominated at party conventions to be held June 1 in Springfield. Each party could agree to nominate fewer than 118 candidates if both agree on the same number, but if not, they would be required to nominate 118.

If the full number is nominated, the ballot would be nearly three feet long, and if fewer candidates are nominated, the ballot would be closed to 2 1/2 feet long.

Under the measure, the ballot would be orange in color and would be cast into separate orange-colored boxes. At the end of voting at 6 p.m., the ballot boxes in the case of Madison county, would be taken to the office of the county clerk in Edwardsville where they would be counted by a bipartisan counting team.

Delegates to the state party conventions are to be elected in the primary. The Legislature has extended the filing deadline from next Monday to Jan. 30 for state representative candidates, and the same deadline will apply to the delegates.

GOP Measure

A Republican bill in the Senate provides that even though any voter may vote for any 177 candidates in the general election in November, the three candidates in each of the election districts receiving the highest number of votes would be elected to serve in the house. It also provides that each downstate county would elect two delegates to voting Jan. 9 and 10. He remains at Fort Glick, Canal Zone. The Red Cross verified her status at the Senate's request.

Mobs gathered in Colon but there was no property destruction there until after they moved to emergency quarters on the army base. Mrs. Buhr related the Press-Record today. Principal fighting and loss of life in the canal ownership dispute took place in Panama City and along the Canal Zone border.

Levee District At-Large Vote Ruled By Clerk; Demo Slate Filed

(Special from Springfield)

The Illinois House of Representatives was expected to pass and send to the Senate today a bill providing for an at-large election of 177 members of the House, and political plans are being made to assure Madison county some representation on the board of trustees of the East levee & Sundry District.

An at-large election of five members of the Levee Board was expected to be passed and sent to the Senate today, a bill providing for an at-large election of 177 members of the House, and political plans are being made to assure Madison county some representation on the board of trustees of the East levee & Sundry District.

The House bill, which would eliminate a primary election of candidates for state representatives, was expected to run into trouble today in the Senate where some Republican candidates were opposed to plans to limit candidates to not more than 118 by each party.

They hold that limiting the number of candidates is unconstitutional and maintain that as there are 177 representatives to be elected, the House bill should provide that each party nominate 177 candidates.

The limitation is designed to assure minority representation in the House in the first such at-large election to be held in this state.

A conference committee may be necessitated to arbitrate some agreement, and instead of a vote on the bill at the end of this week, the current special session of the General Assembly may be expected to continue through next week.

The House measure provides that candidates will be nominated at party conventions to be held June 1 in Springfield. Each party could agree to nominate fewer than 118 candidates if both agree on the same number, but if not, they would be required to nominate 118.

Vacation Pay Due
Former GC Employees

Vacation pay due three former city employees who now are under the new judicial circuit was approved Monday night by Granite City council members, based on the rule of one day vacation for each month employed. The vacation pay, stemming from May 1 through Dec. 31, will be for eight days with former city police magistrate Andrew Gasparovic Jr. to receive \$250. Two clerks will receive \$115 each—Mrs. Aileen Smith, who is secretary for her father, Magistrate Gasparovic, and Marilyn O'Dell, a secretary in the office of the divisional circuit court, formerly city court. Comptroller John Doohar explained the vacation pay was credited to the individuals since the start of the city's current fiscal year last May 1. The changeover to the court system started Jan. 1. The pay was approved only by Alderwoman Gabrielle Betine.

Weddings Outnumber Divorces 5 To 1

There were five marriages to one divorce in Madison county during 1963, according to records in the offices of Circuit Clerk Willard V. Portell of Granite City and Miss Eulalia Hotz, county clerk of Edwardsville. In the county 2190 weddings were performed, an increase of 210 over 1962, and 433 divorce decrees were issued. Most of the marriages in the county were performed by ministers or priests, or a total of 1682. Just the national average is about four to one. The peace ranked second with 242. More marriages were performed in Alton than in any other city in the county with 317. Granite City was second with 280. Edwardsville was third with 217. Collinsville was fourth with 208 and Wood River was fifth with 201. June was still the most popular month for weddings.

Mayor Says He Will Push Appraisals For Nameoki Rd.

Slow progress in acquiring right-of-way for the long-proposed widening of Nameoki road was criticized Monday night by Alderman G. H. Sternberg, chairman of the Granite City council's Street and Alley committee.

Sternberg urged the mayor to order the property appraiser, Andrew Gasparovic III, to complete his job in order that the project might be started this year.

"I plead with you to get something done," Sternberg said that the mayor, Davis replied that he would push for the appraisal completion.

The alderman said that in conferring with state highway officials, he learned the appraisals were not completed as promised by Jan. 15 and that of the 49 pieces of property to be appraised, only 17 appraisals have been received by the state, with seven proposed and 10 being reviewed.

People Concerned

"People involved and others know the details so they can do work on their property," Sternberg said. City Atty. George Filoff Jr. advised him that he had received eight, not seven, completed appraisals from the state highway department and that he was checking the deeds preparing to begin negotiations.

Basarich suggested the Street and Alley committee busy itself with an investigation of the need to prepare for the routing of the new riverfront road, Federal Aid Road 151. He suggested the committee study for possible improvement to Chicago street as the main entrance to the Army Depot and the possibility of constructing a railroad overpass.

Family Counseling Panel Appointed For Next Month

Rev. Raymond Switzer, pastor of DeWee Avenue Methodist Church, chairman, and other panel committee members, Rev. Samuel Boda, St. John Lutheran Church, will serve as counselors in February for the Christian Family Counseling Service sponsored by the Quad Cities Ministerial Alliance and Protestant Welfare Association.

Counseling help for husbands and wives who are planning to separate or divorce may be obtained by calling the Protestant Welfare office, Tr. 6-8700, between 9 a.m. and noon, and 1 p.m. and 4 p.m. The secretary, Mrs. Marie Whittle, will make arrangements to notify the panel in charge. If this is not possible, one member of the counseling panel will be at the office from 7 until 8:30 p.m. Monday and Tuesday of each week. Calls may be made then, or those seeking help may visit the office, 2022 Edison.

A fee of \$1 will be charged for couples. Those who cannot afford the fee also will be served.

County Prepares To Collect Fees On City Dogs

An objection was raised but Granite City council members referred to City Clerk A. L. Stevens Monday night a request from the county for the number of dogs licensed in the city in order that county license fees may be collected from Granite City.

A new state law, signed last August by Governor Blanton, requires counties to collect dog license fees in cities and villages, even though the municipalities also charge license fees.

The protest was made by Alderman Samuel Whitner. However, he agreed that the city should furnish the information to the county.

The county dog license fee is \$1 for male animals and \$3 for females, will be collected by the township assessors according to the law. The city license fee is \$1 for male dogs and \$2 for females.

Distributor License sought

Also referred to Stevens was a letter from Charles Mathenia, 2244 East 27th street, who is seeking a city distributor license for main operated machines. Council members said all applicants are to be interviewed by the police department in accordance with the ordinance covering co-operated devices.

Purchase of a typewriter for the inspection department

A low bid of \$207 was approved. The bid for a machine with a Heilich carriage was received from Graham's Book Store.

Opening of a single bid for liability insurance for the city was delayed pending receipt of additional proposals. Postponed until later date was a decision on operation of a postage meter machine instead of stamps for city mail.

Junior Girl Scout Troop 320 of the Frohhardt school has been presented with an American flag by the Veterans of Foreign Wars Auxiliary. The presentation was made by Mrs. Katherine Rojas on behalf of the group.

Hour To Be Eliminated From Mail Cancellations

A time saving device—elimination of the hour on mail cancellations—will be started Feb. 1 at Quad-City post offices under a new federal regulation.

At present, the cancellation machines are stopped every half hour for a time change, but beginning Feb. 1, the change will be made just twice a day—at noon and at midnight.

Mail canceled after midnight will give the date a.m., while at noon, the change will be made to p.m.

In order to get a cancellation with an hour on it, a patron will have to send the letter by registered mail. The a.m., p.m. cancellations have been tried in larger cities with few protests.

Postmaster W. T. Overbeck of Granite City said there is no need for Quad-Cities mailing income tax forms on April 15 to worry about meeting the midnight deadline. "If it's canceled p.m., you're safe," he said.

The same applies to persons entering contests with midnight deadlines.

his caliber to enter politics and be elected.

"Dick has endorsed Joe Bartylak and he must feel that Joe is capable of doing a creditable job. I decided we should give him a chance."

"I do this remorsefully," Francis said, "because I am letting down a good number of people who have encouraged me to make the race, particularly many friends in Granite City."

"I hope that at some future date the Democratic party will feel that I would be a credit to the ticket," he concluded.

Other County Filings

Meanwhile there have been no filings for county office since the filing period opened last Monday. Democrats filing over, he agreed that the city should furnish the information to the county.

The county dog license fee is \$1 for male animals and \$3 for females, will be collected by the township assessors according to the law. The city license fee is \$1 for male dogs and \$2 for females.

Coming And Going

Fleeting Meeting Monday By GC Council Members

Aldermen were coming and going during Monday nights 143-minute session in Granite City.

Mayor Davis opened the meeting at 8:01 p.m. and the roll call showed Steve Basarich, Mrs. Gabrielle Betine and Clyde Boyd absent.

Mrs. Betine arrived at 8:06, barely in time to catch a word of instruction. She then voted "no" on overriding the mayor or on refusal to grant a point of order in debate on the resolution of the Street Committee to select two qualified engineering firms from which the mayor would appoint a city engineer.

"I'd never vote to override the mayor," Basarich commented.

The council recessed at 9:15 p.m. until 9:24 and departures

Madison To Seek Controls Over Bus Rates, Schedules

The Madison city council joined Collinsville in efforts to place the Bi-State Transit System under the control of the Illinois Commerce Commission and the Missouri Public Service Commission at its meeting Tuesday night.

The Collinsville city government adopted a resolution Nov. 25 calling for controls and suggesting that the Bi-State Development Agency voluntarily place itself under regulatory controls in all operations affecting rates and schedules.

Madison Mayor Stephen Maeras was authorized by the council to contact state and national representatives asking them to investigate the situation.

He noted that the Bi-State Agency is self-regulatory, as provided by enabling legislation by the two states, and that it may not be legal for the agency to place itself under other control. But he added that the two states could amend the legislation.

Adjusted Rates

Objections came with announcements of adjusted bus fares which provided increases in some routes in the Collinsville area.

The council maintained that a state commission should decide whether rates or schedules should be changed.

Mayor Maeras said under this method the people would have to pay more for fares, as in the case of other utilities, and added that "Bi-State should be happy to come under the control of some other governmental agency. It would take criticism away from the people."

The mayor, who said he was opposed to Bi-State absorbing metropolitan transit systems because of loss of taxes and employment, added that the transit system "is doing a good job, but the cost of transportation has increased. It didn't turn out to be all honey and pie."

Best Equipment

Mayor Maeras conceded that the transit system's "equipment is the best, but it just takes money to operate. When you start capitalizing and maintain equipment, you have to get more money."

Bi-State commissioners were commended by the mayor for their public service, and he particularly pointed to their achievement in developing the Granite City harbor on the Chain of Rocks canal. But he said he planned to confer with a mem-

Mothers Form Class For Tots At Kirkpatrick

Thirty-three youngsters aged three and four have enrolled in a "fledgling" class which will meet at the Kirkpatrick Homes recreation hall each Monday, Wednesday and Thursday.

Goals of the program are to teach the children to play together with those of their own age, to share, and to learn the values of group efforts. It is intended to serve as a gradual transition from a child living at home with his mother to participation in a regular school day.

Seven mothers are supervising the group each of the days. Mothers at the Kirkpatrick housing development are donating toys, and milk cartons are being used as building blocks. Toys, art materials, large blocks and small chairs will be accepted for the program at the Kirkpatrick Homes maintenance room.

Fred Mehl is serving as director of the activity, with Mrs. Lloyd Cavanaugh as assistant.

Mrs. Carolyn Beasley is president of the mothers' group, Mrs. Barbara Thebeau vice-president, Mrs. Roberta Lewis secretary and Mrs. Lorene Pierson, treasurer.

GC Demo Club Hears Talk By Chief Jelf

The Granite City Democratic Club met last night in the council room of the city hall with 25 members present.

Vasil Efremoff, president, was in charge and John Krugan gave a business report and also reported on the Christmas party in December.

Assistant Police Chief Floyd Jelf addressed the group and explained the police service in Granite City. After the talk he conducted the group through the police facilities.

Two Booked For Fighting

Bobbie Gene Lovins, 17, of 1221 Kerr street, and William Ivor Cowley, 19, of 830 Lincoln avenue, both of Venice, were booked at 8:55 p.m. yesterday on charges of fighting in front of the Madison Memorial Recreation Center.

Both posted bond last night and are scheduled to appear Feb. 8 in magistrate court.

Raps New Courts

He said that "the courts today are not ready for passage," he said. "There are so many things unsettled. It may be years before it becomes a smooth operation. That's why we offered the circuit court the use of our city court, at our own cost, to be of service to our own people. They won't have to go to Granite City, Alton or Edwardsville on petty cases."

Police Report Reviewed

The council reviewed an annual police report, published elsewhere in this issue, in making comparisons with the last two years, the mayor said the report shows a decrease in minor cases but a small increase over 1962 in cases of robbery, larceny and burglary. He remarked that use of a police dog is a contributing factor in holding the crime rate low.

A refund of \$62 was made to the federal government on the sale of old portable communication sets acquired previously from the federal government, representing half of a \$126 trade-in obtained in the purchase of new equipment.

A motion by Alderman Donald Reeves, the street department was commended for its work in removing snow from the streets during the area's recent heavy snow storm.

Fees And Plans For Sewage Plant To Be Readied

Detailed construction planning for the city's sewage treatment plant was authorized Monday night by Granite City council members at the request of the project engineers, Sheppard Morgan & Schwab.

The council also extended the duties of the Special Pollution committee, subject to ratification with the preparation of a resolution, to work with the fiscal agent, bond attorney and engineer to develop a rate ordinance setting monthly use fees for dwellings, businesses and industries.

Committee Chairman Charles W. Moerlein requested the resolution granting the additional au-

thority to the committee, and it is to be prepared by the city attorney.

The city is to direct the engineering firm to prepare the construction plans for the plant and at the site on Granite City Army Depot property are to be started immediately.

A motion was made and then withdrawn by Alderman Walter Nom relative to development of financing for installation of sanitary sewers in several areas of the city that are without sewers.

Moerlein explained that bond attorney William Beatty was studying the methods of financing sanitary sewer lines in North Granite, sections of West Granite and elsewhere.

Mayor Adams played the World Series for keeps. The captain of the vanquished team lost his head.

A member of Calvary Baptist Church, Mr. Eads was a retired grocery clerk. He was employed at Eads Market for 15 years.

Bids are now being accepted on a chassis for a fire truck that will be added to the Long Lake Volunteer Fire Department, according to Chief Jack Harper.

Harper said specifications for the chassis may be obtained from him at Berger Auto Parts, 1816 State street, before March 1.

He said the department, which is located at 4113 Pontoon road, now has three trucks—one that holds 500 gallons of water and has a 500 gallon per minute pump, another that holds 1000 gallons and also has a 500 gallon per minute pump and an emergency vehicle, equipped with a power generator, inhalator and gas masks.

The department was started in 1950.

1963 City Sales Being Received At Record Rate

September municipal sales tax revenue for the local area totaled \$25,588, based on collections from taxpayers filing on a monthly basis only. Some smaller taxpayers now file quarterly and annual reports.

The \$25,588 figure on September tax liability—actually paid the following month—consists of \$20,891 for Granite City, \$3710 for Madison and \$886 for Venice, the Illinois Department of Revenue disclosed.

For the first nine months of 1963, the tallies are \$176,513 for the Granite City treasury, \$31,190 for Madison, \$7761 for Venice and \$215,463 for the Quad-Cities area.

A similar point in 1962, the combined total was \$214,139, indicating a slight upward trend in 1963. Of Sept. 30, 1962, Granite City had qualified for \$174,306, Madison \$31,667 and Venice \$854.

Grand total in all of 1962 was \$283,501, a record. Final 1963 statistics are unavailable, since the reporting process at Springfield requires several months.

the Granite City Army Depot in 1963. In cooperation with the Soil Conservation Service of the U.S. Department of Agriculture, a land use conservation plan was developed for Camp Sunner, and will soon be completed for other camp properties. Three new buildings were added to Camp Sunner and the camp program was strengthened resulting in a National Class A Camp Award. The council trust fund committee was reorganized and a new trust fund brochure prepared. A study of the needs and program of the council now and in the future was instituted. District and council leadership was strengthened for the ultimate purpose of better service to all boys in Scouting.

Fourth Of July Celebration Set For July 1-5

(Continued from Page 1.)

The annual Fourth of July celebration will be held Wednesday, July 1, through Sunday, July 5, at Wilson Park. It was decided last night by the Granite City park district's board of commissioners.

The board authorized Harold Brown, director of parks and recreation, to negotiate for contracts on carnival rides and \$1000 worth of fireworks. The fireworks will be set off at 9 p.m. July 4.

Also scheduled was the annual Winter Carnival to be held Thursday, March 12, at the Granite City high school gymnasium. And the annual bowling banquet was scheduled for April 4 but there is a possibility that affair may be moved back a week to March 26.

The board will go to Clayton Mo., Monday night to view that city's artificial ice rink. The local board still is considering construction of a rink here at Wilson Park. Also discussed was the possibility of hiring an architect to direct such a project.

Board President Barry Loman reviewed the current revision of the rules for the boys' baseball leagues and Commissioner Milton Allen brought up the possibility of leasing land for baseball diamonds. The board decided to investigate the leasing idea.

Loman appointed a committee to pick a name for the district's new 20-acre park east of Edgewood. The committee was appointed chairman with Paul Schuler and Allen as committee members.

Allen reported on the park district program which permits residents to play golf at the Granite City Army Depot course. He said 1069 daily permits and 256 weekend permits were issued last year, up about 10 percent over the previous year. The same program will be carried on this year.

A request by the Mercer Funeral home to use a field during the coming season was approved.

Fog Causes Crashes Today; Four Injuries

Four persons were injured in this morning's fog which caused traffic mix-ups in and near the Quad-Cities. Multiple vehicle pileups were reported by state police on Route 3 near West Pontoon road, at Route 3 and 35 and on Interstate Route 70, outside East St. Louis.

Those treated at St. Elizabeth Hospital were Mrs. Diana Fordshaw, 43, both of Edwardsville, employees at General Steel Industries, and Miss Pat Cusanello, 20, Edwardsville, a Union-Steel & Refining Co. employee. They were passengers in a three-car pileup on Route 162. State police have been unable to complete reports on the crashes, but said they knew of only minor injuries.

A victim of the Route 3 pileup was Miss Paulette Christ of Alton, a teacher at Marshall school here. She was taken by ambulance to St. Joseph Hospital in Alton.

Only two accidents were reported during the heavy fog on Quad-City streets.

Cars driven by Marshall L. Bennett Jr., 29, of 2808 Dale avenue, and Darrell Pirtle, 23, of Lynch avenue, collided at 6:30 a.m. at Madison avenue at 26th street. Bennett told police he thought he hit a bump in the road and continued on his way, reporting to police later.

Morgan also reported that last Friday vandals broke a window in the front of his house with a snowball.

and an alternate to the party conventions.

Included in the House bill are appropriations of \$800,000 as the state's share of additional police salaries. The November election is expected because of the reapportionment problem, and another \$100,000 to procure special election equipment for the party clerk.

Levee District Issue

Meanwhile, Aldermen General William Clark has issued an expected ruling that an at-large election is scheduled for the Levee District because of an amendment to a bill which originally called for election of two trustees from Madison county.

Tacked onto the measure to recommend a special session in the Prairie du Pont Levee and Sanitary District was an amendment to elect trustees to be elected from the district as a whole if the territory in the district was less than 100,000. The Madison county portion of the East Side district has a population of 100,000. It was meant to say counties of 100,000 population.

Senator Simon and others have asked Gov. Kerr to call a concurrent special session of the Legislature to correct the situation, but Simon believes that chances of this are slim.

List State

Members of the state who filed petitions for nomination at Springfield are William M. Ebersold, Venetie; Joseph A. Grant, Granite City; and James Lawrence "Larry" Tolar, East St. Louis; Morris Campbell, East St. Louis; city license inspector; and George Huff, East St. Louis incumbent.

The other two incumbent members of the St. Clair County Board of Supervisors are Molla of East St. Louis, attempted to file petitions Monday at the St. Clair County clerk but were told they would have to file in Springfield.

The five Democrats and two Republicans had filed as of last night.

Gist of Clark's ruling was that the levee district territory includes 130,000 people in St. Clair county and 70,000 in Madison county. Each county has more than 100,000 residents, but the law used the word "territory."

MORE ABOUT Mayor To Veto

(Continued from Page 1.)

Johnston, who was ignored by the mayor. As Nomm continued to insist that the city should not take any action on that time, several aldermen said their decision for repairs was based on the \$300,000 replacement estimate.

Johnston and Sternberg continued to disagree over the \$200,000 engineering inspection cost on the Myrtle avenue and Ralph and Alexander streets improvement project. Johnston said the bill was submitted to the city in June for inspection in March, April and May.

Sternberg said the construction time on the job was 4 1/2 months for which the city was billed for 4 2/3 months. Johnston said the work took 7 1/2 months. He added that on the three projects he was forced to order the removal and replacement of about 50 feet of new curb, 12 square yards of alley entrance and 75 square feet of sidewalk due to the cost of the contractor's equipment.

Joseph Cariss, 22, Hurt Near Columbia, Mo.

Joseph Cariss, 22, son of Dr. and Mrs. D. J. Cariss, is in serious condition at the Boone County Hospital, Columbia, Mo., where he was taken after suffering a concussion and a fractured skull at the scene of a motorcycle accident near there Tuesday.

He will be transferred here as soon as his condition improves. Dr. and Mrs. Cariss are remaining in Columbia pending the outcome of the injuries.

Viaduct Barricades Knocked Down In Crash

Gene Bewley, 2432 Terminal avenue, is being questioned by St. Louis police and is to report to the police on a Broadway street project which he had to have a city engineering department, and that such a project "can wait a year and four million dollars until the next mayor is elected."

Violence for the resolution were Alvin J. Partney, Rutledge, Whitmer, Mrs. Betine, Johnston, Dallas, McGee, Moerlein, Sternberg and Thompson. Opponents were Nomm, Skubish, Basarich, Bartosick and Bergfield.

Few Comments On Statement
Discussion was brief on the statement presented to the council by Engineer Johnston, who addressed it to Mayor Davis. However, supporters of the city engineer indicated they would have answers at the next session.

In his statement Jan. 6, Sternberg said that while Johnston's fees for state-approved motor fuel tax project were within the fees authorized by the state, that lower fees could be obtained. He also stressed that Johnston's assistant, assigned to Granite City was not a registered engineer, and that the city was in need of a full-time registered engineer.

Johnston stated, "In regard to the fact that a non-registered engineer has been serving in the capacity of our representative in Granite City, it was never intended, nor could we afford to pay the price of a registered professional engineer who cannot be secured at a cost of \$5000 a year."

"The actual salary the man now receives is above that price. We have insisted that all correspondence that leaves his office be signed as 'resident engineer' and none of his work has been submitted to the council unless it was reviewed by myself or one of the other professional engineers in our organization."

The resident engineer, A. E. Pearson, stated that he had "never received a check from motor fuel tax funds; but only from my office." Therefore, I can see no concern on this problem."

Johnston Lists Fees

Johnston added that his motor fuel tax project fees are not excessive, compared to the basic minimum schedule agreed by the Illinois Society of Professional Engineers adopted in 1956, with the exception of the 10% fee for a \$300,000 project, which the society sets at 9 1/2%. For a \$500,000 project, his fee is 8 1/2% compared to 9 1/2% set by the society and for a \$100,000 job the firm's fee is 7 1/2% compared to 7% established by the society, the statement set forth.

The 7 1/2% charge for overhead and profit, challenged by Sternberg, is allowable at 100% Johnston added.

"Seventy-five per cent is well within the basic minimum," he stated.

Referring to specific projects, Johnston said he has not charged the city for preliminary estimates made in December for the 23rd street drainage project and that the \$200,000 sewer repair project along 20th street was necessary because a Tuesday line could not be constructed along the same street.

Johnston said the cost of the Terrace lane sanitary sewer replacement project was \$160,000 instead of the \$80,000 quoted by Sternberg on Jan. 6. Johnston's firm had estimated the replacement cost at \$300,000.

Sternberg related that the actual replacement cost was \$90,000, paid by the Levee District, while Johnston added to this \$37,884 paid by the city to pump sewage during construction and for removal of trees and shrubs. He also added \$113.99 for street repairs.

Street Repairs Either Way
Sternberg contends the street repairs would have been necessary if the repair project had been successful, and that the city also

paid sewage pumping costs during the repair work.

Nomm pointed out it was the city council's decision, opposed only by Mrs. Betine, to repair the sewer two years ago. At that time, several aldermen said their decision for repairs was based on the \$300,000 replacement estimate.

Johnston and Sternberg continued to disagree over the \$200,000 engineering inspection cost on the Myrtle avenue and Ralph and Alexander streets improvement project. Johnston said the bill was submitted to the city in June for inspection in March, April and May.

Chamber To Oppose U.S. Credit Bill At Hearing

(Continued from Page 1.)

Sen. Paul H. Douglas (D, Ill.) will put his federal credit control bill, Senate Bill 750, in the spotlight with a public hearing at 10 a.m. Saturday at the East St. Louis city hall. The bill has failed to clear the committee and he is seeking to build public support. Testimony Saturday will not be given as part of the committee records.

Proponents say it would foster "truth in lending," enabling consumers to learn exactly what interest they pay, and would curb excessive interest charges. Opponents, who will include the Tri-Cities Chamber of Commerce, say it would raise prices due to costly mathematical computations, force inaccurate ratings, thus truthful data to be given, restrict credit information now supplied to the public and impose federal restrictions on purely local transactions.

Trojans Face Cahokia After Blitzing Dupo 104-85

Slow Tactics Pose Problems For Locals In Key League Game

It will be interesting to see if Madison's Trojans, fresh from a razzle-dazzle 104-85 victory over Dupo, can keep up the rapid pace tomorrow night.

For the local high school cagers travel to Cahokia for a crucial Midwest Conference game with the Cahokians, who like to play the game in a methodical manner that it makes their opponents.

This will be the second match between the Cahokia tortoise and the Madison hare. Like in the storybooks, the tortoise won the first race—plodding to a 62-55 triumph in the O'Fallon Tournament championship on Dec. 14.

"We'll have to make 'em play our way," said Madison's Coach Eric McClanahan. "We can't piddle around with 'em like we did at O'Fallon."

With Madison at 5-0 in the conference and Cahokia at 2-0, the game is seen as the key point in the Midwest season. Overall, Madison is 11-3, Cahokia 9-3.

Season's First 100
The Trojans' first of the current season but McClanahan was not impressed by high figures.

"It doesn't mean much. We could have hit a hundred three or four times. With our new 'wanted to,' said the coach. His team is averaging 80 points a game and passing 90 in three previous games.

It looked as though the Trojans might not hit the century mark this time. With four reserves and starter Hayes Wright in the lineup, the locals had 90 points halfway through the final quarter.

But their shots kept missing and it wasn't until Mike DeYon scored two free shots with one minute left that the Trojans hit 100.

Bell, Turner Hit 24
Three Trojans scored in double figures, with Ceil Bell and Dale Turner scoring 24 each and Paul Lusk hitting 18. But the game's high scorer was Dupo's tall Gary Cook, who punched in 11 threes and nine foul shots.

After the host Trojans took a 20-10 lead in the first quarter, the Trojans almost kept pace in scoring. In fact, they closed the game with a six-point run in the third quarter.

McClanahan remarked: "The kids were much too slow; they were beaten before (90-75 on Dec. 17)—the kids have a letdown."

Dupo won the junior varsity game 14-9 as Dale Rine tallied 23 points. For Madison, DeYon scored 20 and Carl Marr made 14.

Lowly Aviston Visits Venice For MCM Tilt

The Aviston Eagles, cellar team in the Madison-Clinton-Macoupin Conference, meet the championship-minded Venice Devils tomorrow night at the Venice gymnasium.

The Devils warmed up for the conference game by defeating Vainmeir's Pirates 74-68 at home Tuesday night. Venice now owns a 10-4 record.

Aviston has won only one of 12 games this season and is winless in five conference contests. At Aviston on Dec. 3, the Devils bounced to a 78-36 victory.

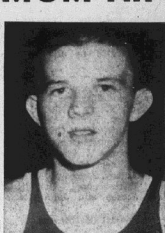

The lone Aviston success came on Nov. 19, when Tamaroa was a 66-40 victim. The Eagles' one-man scoring machine is 6-0 Ken Striker, who is averaging about 20 points a game.

John Robertson, Venice's steady 6-2 senior, paced the Red Devils in scoring for the third time this season with his highest total—20 points on 10 field goals.

Included in his successful shots were four set shots from 30 to 35 feet out. Three teammates were in double figures: Rich Essington (14), Ken McKullen (11) and Mike Edwards (10). Paul Sittion added nine.

Venice rolled to a 31-18 halftime lead after a slow first half in which it gained only an 8-6 edge. The Devils had a 22-point lead with 5:30 remaining in the game when Coach Bill Olfendoff ran in the reserves.

The Venice junior varsity also won—55-35, with Denny Hill scoring 17 and Terry Cooper 15. Next Tuesday, Venice plays an

Lilley, Proffitt Injured

Weakened Warriors At Belleville, Home To Alton In League Battles

"Necessity knows no law except to conquer."

It's a cinch Publius Syrus didn't have basketball in mind when he put down those words in 42 B.C. But his thoughtful phrase could be an inspiration to the Granite City high school team.

The battle-scarred Warriors will march on Belleville tomorrow night with two leaders—starters Larry Lilley and Jim Proffitt—suffering from injuries that are likely to keep them from the front lines for quite a spell.

And the well-fortified Maroons aren't the only worry this week-end for Coach Andy Sullivan's tribe. On Saturday night, the unpredictable Alton Redbirds lay siege to the local gymnasium.

The Warriors need victories in the two Southwestern Conference contests, so conquer they must to stay in the running before unquarrelled Collinsville and Bohemianville the Great.

A New Problem—Sullivan has filled in for Lilley, the team's top scorer with a 19-point average, is a new one, however. He suffered a sprained right wrist in the fourth quarter of Saturday night's victory over Shelbyville.

And the six-foot playmaker missed two early games this season before the knee was reinjured last Friday night against Collinsville. He may sit out the rest of his high school career.

Rich Williams Holds 9.9 Scoring Average

Rich Williams, ex-Granite City high school player now a starting guard for the Bradley University basketball team, is averaging 9.9 points per game.

Williams has scored 138 points in 14 games. He has hit on half of his field goal attempts—63 of 126—and has made 13 of 16 free throws.

The Braves, with a 10-4 record, play Butler in Peoria Saturday night and on Jan. 27 meet the Peru National Champions, also in Peoria. The game with the South Americans will raise funds for the U. S. Olympic team.

successful attempt to steal the ball. After intercepting, he sped toward the camera and scored a field goal to give the Trojans a 59-49 lead in previous score on scoreboard. Other white-uniformed Madison players are John Summers (behind Skinner at left), Ceil Bell (directly under arrow) and Paul Lusk (in background under basket). Official at left is Ted Search Jr. of Chester, Ill. Action took place with 4:20 left in the third quarter.

Lincoln Place Tops Saints Team 59-44

Lincoln Place took a slim 24-23 halftime lead, then defeated the Saints 59-44 in High School League basketball action Monday night at the Community Center.

Jim Pomeroy's 14 points and John Pomeroy's 12 paced Lincoln Place while Joe Fanning scored 17, Mike Laster 11, and Bob Karantjeff 10 for the Saints.

It looked as though the Trojans might not hit the century mark this time. With four reserves and starter Hayes Wright in the lineup, the locals had 90 points halfway through the final quarter.

But their shots kept missing and it wasn't until Mike DeYon scored two free shots with one minute left that the Trojans hit 100.

Bell, Turner Hit 24
Three Trojans scored in double figures, with Ceil Bell and Dale Turner scoring 24 each and Paul Lusk hitting 18. But the game's high scorer was Dupo's tall Gary Cook, who punched in 11 threes and nine foul shots.

After the host Trojans took a 20-10 lead in the first quarter, the Trojans almost kept pace in scoring. In fact, they closed the game with a six-point run in the third quarter.

McClanahan remarked: "The kids were much too slow; they were beaten before (90-75 on Dec. 17)—the kids have a letdown."

Dupo won the junior varsity game 14-9 as Dale Rine tallied 23 points. For Madison, DeYon scored 20 and Carl Marr made 14.

Flourissant Defeats Coolidge Wrestlers

Flourissant, Mo., dealt Coolidge junior high school its second straight wrestling loss Tuesday afternoon at the local gymnasium, 24-22.

The match was decided in the heavyweight bout, in which Coolidge's Bob Prince was pinned in 3:47. Prior to that bout, the score was 22-19 in the Brave's favor.

Ray Hankins, 165-pounder, and Dean Jones, 154, had Coolidge's only pins. Gus Schalkham (103), Danny Wilson (121), Brian LaMew (127) and Steve Conway (133) won decisions.

Looked for a fall with Prince were Rich White (145) and Bruce Illies (128), who was downed in 35 seconds. Losing decisions were Jerry Griffin (95), Randy Restio (112) and Ed Clemmons (180).

Before taking the two losses, Coolidge had won nine straight matches.

Boosters Club Sells Car Aerial Pennants

"Win Warriors" pennants, to be used on car radio aerials, are being sold at 50 cents each by the Boosters of the Fighting Warriors.

Proceeds will be used to provide game films and other items for Granite City high school teams. The red and black pennants are designed to be used on the days of athletic events.

They may be obtained from any member of the Boosters by contacting President Rich Neumann, 3425 Lydia lane.

At a meeting Monday night, the Boosters discussed the school's basketball—wrestling season which begins in March. Roger Maue, assistant basketball coach, showed films of the Granite City-Collinsville game.

An executive meeting will be held Monday at Neumann's home. It was reported the club now has 202 members.

Granite City Vs. Mehlville in Wrestling

Two once-beaten high school wrestling teams, Granite City and Mehlville, Mo., get together for the first time at 1:30 p.m. Saturday in the GCHS gymnasium.

Granite City holds a 10-1 record and Mehlville holds 9-1. Both teams took their lone setbacks from Waukegan, during that Northern Illinois school's trip to the area Jan. 3.

Waukegan defeated Mehlville 38-7 that afternoon and the local school 30-13 that night.

Providing Mehlville gets past its meet tomorrow with Pattonville, one team will end a winning streak here Saturday. The Mehlville team will have won 31 straight matches with area school, and the Warriors have a streak of 10 consecutive victories against local schools.

Along with nine dual triumphs, Mehlville has won two tournaments. Argon Invitational and the O'Fallon Tech meet earlier this month.

At the championship in the latter tournament were John Wilhelm (103 pounds), John Smith (112), Ray Laddo (127) and John Thomas (130). Runners-up were Jerry LaRosa (133) and Ron Rubottom (145).

"They're strong where we are, and weak where we are," said Bill "Red" Schmitt, coach of the Warriors.

At the two regulars will be missing from the Granite City entry list, Jim Valcoff, 135-pounder, is recovering from a rib injury and Rich Blescoe, 112, is ineligible.

The Warriors waited at East St. Louis next Tuesday night, 23 seconds. Others were by Tony Gray (154 pounds), Don Kunda (165) and Roger Hickman (180). Chuck Penoglio (103) and John Hagan (145) won decisions. Bill Gibson (127) battled to a draw.

Jerry Lapinski (112), Bob Horvick (138) and Alvin Lux (heavyweight) all lost on pins and Dan Kirksey (120) and Dan King (135) dropped decisions.

In exhibition bouts, Prather's Joe Martinez, Steve Ritchie, Larry Wendell and David Schwendemann had victories; Leonard Wendell drew and Eddie Lane and Dave Stoppokke lost.

Prather Mat Squad Ups Record To 6-3

Prather's wrestling team improved its record to 6-3 by defeating Roxana 28-23 in a junior high meet here yesterday afternoon.

The Chiefs posted four pins, one by 95-pounder Bill Fuchs in 23 seconds. Others were by Tony Gray (154 pounds), Don Kunda (165) and Roger Hickman (180). Chuck Penoglio (103) and John Hagan (145) won decisions. Bill Gibson (127) battled to a draw.

Amsted Industries, which includes the local American Steel Foundries plant, more than doubled its net income during the quarter ended Dec. 31, compared with the same quarter of a year ago. It was an announced in Chicago Tuesday by Joseph B. Lanterman, president. During the first annual board meeting, directors declared a 40-cent per share dividend payable March 15 to stockholders of record Feb. 19.

Lanterman said operations in the present quarter also should show an increase over last year. "Contributing to this substantial overall improvement in business this year will be a higher level of sales with the resurgence of new freight car ordering by railroads a major factor. The railroad purchasing picture is expected to remain bright in 1964," the president added.

35% Cut In State Railroad Valuations May End Protests

The hope that future railroad tax objections will be virtually eliminated was reported this week by Miss Dulala Hotz, county clerk, who said the state has set 1963 railroad assessments in Madison county at \$21,624,859, a 35% cut from \$33,240,000 in 1962. The new valuations were based on a local basis at 60% or less. Yearly objections have been filed, and large amounts of protested taxes have been accumulating.

The new state railroad valuation is based on amended procedures outlined by the 1963 state legislators and approved by Gov. Kerner Aug. 26, Miss Hotz said. The new president, James Hull, East St. Louis, was installed, after which plans were made for the final stage of the poll immunization project to take place Sunday in St. Clair county.

Pharmacists from the two counties have been manning immunization centers during the program, and in turn St. Clair county pharmacists agreed to help with the Madison county project which begins March 8. Quad-City pharmacists who attended were Donald Vaughn, Ronald Rojas, William Duckworth, Paul Schuler and Miller.

Son Born Wednesday To Former Residents

Mr. and Mrs. Michael Turgovich of East Alton, formerly of this city, are announcing the birth of their first child, a son, Wednesday at St. Elizabeth Hospital. The baby, whose weight was four pounds, seven ounces, has been transferred to the Christian Welfare Hospital Pre-mature Center, East St. Louis.

Granite City PRESS-RECORD Page 16 Thurs., Jan. 23, 1964

He has been named Michael Robert. Mrs. Turgovich is the former Judith Taylor, a daughter of Mr. and Mrs. Robert Taylor of this city. The paternal grandparents are Mr. and Mrs. Steve Turgovich, also of Granite City. Human beings close their eyes from the bottom up.

Green Beans in Exotic Entree

Frankfurters and blue lake green beans take a tip from exotic island cookery and team up with pineapple chunks in a zingy sauce for "Beans and Franks Hawaiian." Serve this economical, easy-to-do but elegant mélange over fluffy hot rice for a meal that truly satisfies.

Stringless blue lakes remove the drudgery from much cooking. Heated in their own liquid with seasonings to taste as a vegetable; marinated in a piquant dressing as a salad, or combined with other vegetables, meat or fish in casserole dishes, these pole beans are always ready to use straight from the can. They are grown especially for canning in the lush Pacific Northwest where ideal climate and an abundance of water help to guarantee tender, full-bodied green beans for your everyday eating enjoyment.

Beans and Franks Hawaiian
1 can (1 lb.) blue lake green beans
8 frankfurters
1 can (1 lb. 4 oz.) pineapple chunks
3 tablespoons soy sauce
1½ tablespoons vinegar
¼ cup chopped onion
¼ teaspoon dry mustard
¼ teaspoon powdered ginger
¼ teaspoon pepper
1 tablespoon cornstarch
1 tablespoon cold water
Hot cooked rice

Drain beans. Slice frankfurters diagonally about ¼ inch thick. Combine with beans, pineapple and syrup, soy sauce, vinegar, onion, mustard, ginger and pepper. Bring to boil; simmer, covered, 8 to 10 minutes. Blend cornstarch and water. Stir into bean-frank mixture; cook and stir until clear and thickened. Serve over rice. Makes 4 to 6 servings.

JUNIOR SCOUTS WELCOME MEMBER

Junior Girl Scout Troop 221 met Tuesday with Mrs. Ethel Gettleman. The meeting opened with songs and the new member, Charlene Kennerly, joined the troop. She entered the Busy Bee patrol, and Judy Baker went into the Star patrol.

A re-dedication ceremony will be held for Charlene Kennerly next week; she will advance from a Brownie to a Girl Scout. The troop was told it will post the colors at the March PTA meeting and present a play. A ceremony was held and the patrol leaders received their cords. They told what the patrol cords mean and the duties of a patrol leader.

Retiring patrol leader of the Busy Bee patrol, Sally Gettleman, pinned the cord on Sandy Deatherage and gave her the Girl Scout handbook. Mrs. Gettleman pinned the cord on Mimi Midyett, leader of the Star patrol.

All the other members pledged to help and be loyal to their patrol leaders. The ceremony closed with the Girl Scout promise and the song, "When You Make a Promise." The girls went into their patrols and worked on handicrafts.

The meeting closed with "Taps" and a scout prayer, and refreshments were served to Jean Funkhouser, Sandy Deatherage, Elaine Rousso, Judith Baker, Sally Gettleman, Mimi Midyett, Susan Paschedag, Vickie Paterson, Sharon Jones, Judy Meyer, Mary Taylor and Charlene Kennerly.

Madison Fires Tuesday At Tavern, 2 Vehicles

Madison firemen listed damage as minor at all of three calls which they answered Tuesday.

The alarms were received shortly after midnight Tuesday morning from the Spencer's Lounge tavern, 800 Jackson street, where cooking oil on a stove had caught fire; at 6:50 p.m. from 800 Madison avenue, where a St. Louisan's truck sustained slight engine damage; and at 7:10 p.m. from Fifth street and McCambridge avenue, where transmission fluid burned in the auto of Willie Curry, Lee Wright Homes, Venice.

Charcoal has twice the heating power of wood and burns without flame or smoke. It is still extensively used in many European and Asiatic countries.

Bull's Eye Meat Balls

The ever-popular hamburger made its debut at the St. Louis Fair of 1900-04, but it has traveled a long and juicy road since that time. Today, hungry you and I consume more hamburger than any other type of meat.

The spiciness of Tabasco liquid red pepper seasoning sparks both the individual meat leaves and their warm blanket of sauce. Bull's Eye Meat Balls score high in protein and nourishment, and make an easy menu on the family food budget. This novel variation on the hamburger theme combines good ground chuck with a hidden surprise of hard-cooked eggs. The beef is blended with bread crumbs, eggs, milk, salt and thyme, and the mixture is then shaped around the eggs and baked. Canned tomato sauce is poured over the meat balls for the last 10 minutes cooking time.

Bull's Eye Meat Balls
 2 eggs
 1/2 cup dry bread crumbs
 1/2 cup milk
 1 1/2 teaspoon salt
 1 can (8 ounces) tomato sauce
 1/2 teaspoon Tabasco, divided
 1/2 teaspoon thyme
 1 1/2 pounds ground chuck
 5 hard-cooked eggs
 1 can (8 ounces) tomato sauce
 Beat eggs in mixing bowl. Stir in bread crumbs, milk, salt, 1/2 teaspoon of the Tabasco and thyme. Add meat and mix well. Divide mixture into 6 portions. Form meat around hard-cooked eggs to cover eggs completely. Place meat balls in shallow baking dish and bake in moderate oven (375° F.) 30 minutes. Combine tomato sauce and remaining 1/2 teaspoon Tabasco. Pour over meat balls and bake 10 minutes longer.
 YIELD: 6 servings.

Ladies Luncheon For Twelve

When it is your turn to hostess the social circle or other club group, make it a salad and sandwich luncheon. For the salad, suggested here are individual molds of tomato aspic each topped with a mound of crab or chicken sandwiches made with both light and dark bread and a variety of fillings complete the main course. Make the tomato aspic this new quick way with a Swiss recipe soup mix, and for the best 1/2 flavor and quality, make the crab and chicken salad with real mayonaisse.

1 envelope Swiss recipe soup mix
 1 cup water
 1 spring vegetable soup
 1 (1-pint, 2-ounce) can tomato juice
 Pour soup mix into saucepan. Gradually stir in water. Bring to a boil, stirring occasionally. Reduce heat; partially cover and simmer 7 minutes. While soup is simmering, sprinkle gelatin on 3 cup tomato juice to soften. Add relish to soup and stir until completely dissolved. Mix in remaining tomato juice. Pour into 12 individual molds. Chill until firm. Unmold and serve with mounds of Crab or Chicken Salad.

Crab Salad: Clean and flake 1/2 pound cooked crab meat. Combine with 1 cup finely chopped celery, 2 tablespoons finely chopped onion and 1/2 cup real mayonaisse. Chill until serving time.

Chicken Salad: Lightly mix 2 cups diced cooked chicken, 1 cup cooked peas, 1 cup diced celery, 1/2 teaspoon grated onion, 1/2 teaspoon salt, dash pepper, and 1/2 cup real mayonaisse. Toss well coated with mayonaisse. Chill until serving time.

COCKTAILS? Schneidhards Holiday Inn

A Miniature Coffee Cake for Each Cup of Coffee

There is nothing friendlier than an invitation to coffee. It needs to be a formal afternoon party with fancy sandwiches and the silver service. A relaxing, friendly gathering of good friends. When you can really enjoy that second cup of coffee—is the warmest way to entertain old friends or introduce new ones to the neighbors.

Instead of a traditional coffee ring on rounds of doughnuts, a bun, serve these delicious little individual coffee cakes. It takes so little time and effort to make them. That's why miniature coffee cakes are particularly fine for club coffee teas.

Individual Coffee Cakes

1/2 cup shortening
1/2 cup sugar
2 egg yolks
1 1/2 cups sifted, enriched flour
2 teaspoons baking powder

1/2 teaspoon salt
1/2 cup milk
2 egg whites
1/2 cup sugar
1/2 teaspoon cinnamon
1/2 cup chopped walnut

Cream shortening. Add 1 cup sugar gradually and cream thoroughly. Beat egg yolks. Add to first mixture. Mix and sift flour, baking powder and salt and add alternately with milk. Beat egg whites stiff but not dry. Fold in. Four into well-greased individual pie pans. Mix 1/2 cup sugar with cinnamon and chopped walnut nuts. Sprinkle over batter. Bake in moderate oven, 375° F., 20 to 25 minutes. Serve hot. Yield: 8.

THE DEPENDABLES: SUCCESS CARS OF '64

Heard about Dart's new V8? It's getting around fast!

Hot is the term that describes engines with more than adequate performance. It describes Dart's 225 cu. in. Six exactly. This Six has been more than a match of other compact extra cost engines. So why a new V8? We wanted to do something special for the guy who never quite got sports cars out of his system. And here it is! 273 cubic inches of bold V8 vigor.

Cat-quick from a stop. Plenty of reserve for highway passing. This responsive power plant turns regular gas into premium gusto. Prove it? Just judge the pedal toward the carpet, and you've got the answer—real quick! And isn't it just like Dart to give you more action. Dart already gives you more room, comfort,

luxury and luggage space than more-than-a-few other compacts. And with Dart you also get a long, strong 5-year/50,000-mile warranty.* (There goes Dart!... giving you more again.)

***THE DEPENDABLES GIVE YOU SIX-YEAR/50,000-MILE PROTECTION**—Chrysler Corporation warrants, for 5 years or 50,000 miles, whichever comes first, against defects in materials and workmanship and will replace or repair at a Chrysler Motors Corporation Authorized Dealer's place of business, the engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excluding manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings of its 1964 automobiles, provided the owner has the engine oil changed every 3 months or 4,000 miles, whichever comes first. The oil filter replaced every second oil change and the car's air filter cleaned every 6 months and replaced every 2 years, and every 2 months thereafter for the life of the vehicle or the remainder of the required mileage, and the dealer to certify (1) receipt of such evidence and (2) the car's then current mileage.

MONDAY, JAN. 23, 1939
Former Representative Lloyd "Curly" Harris of Granite City announced yesterday that he has accepted appointment as assistant to the chief inspector of the Department of Conservation of Illinois.

First day enrollment at Community high school for the spring semester was 1475, the largest in the school's history. Of this number, 353 students enrolled in the vocational building and 1122 in the academic building.

Today's registration was 186 higher than the same time a year ago. Supt. Paul A. Graczyk said that it also exceeds the enrollment for the fall term, which was 1392.

Instead of their usual meeting Thursday afternoon, members of the T.A.E. club went to a tea room in St. Louis for a 1 o'clock luncheon and party.

All of the eight members were present, and pinocchio games followed the luncheon, with favors going to Mrs. Charles W. Hoover and Mrs. J. E. Shanon.

Legislature Willing To Correct Levee Voting Law If Empowered

Two Quad-Cityans might be elected to the East Side Levee and Sanitary District board this year even under the at-large voting system that Illinois legislators thought they had eliminated.

But, Madison county's right to two representatives on the board should be on a firmer basis than the verbal acquiescence of St. Clair county political leaders. If the latter retain the dominant voice in levee elections, they could use their voting power directly or indirectly to try to influence the action of the at-large voters.

What is needed is what was intended by the General Assembly in its 1963 law on levee elections—Madison county residents voting only on their candidates, and St. Clair county residents voting only on residents of their area.

Gov. Kerner and the legislature would be performing a great public service if they immediately obtained a correction of wording in the law through a concurrent special session.

The error in wording is one that could be corrected easily; the legislature is clearly willing to do so if empowered to take up the matter. The future of the levee district for the next four years, when other routine business may be done, is a period of time, hinges on prompt action at Springfield.

Useful reports were given, including that of the relief chairman, Mrs. Harden Jackson. At the other routine business was disposed of, with Mrs. Clarence Armfield, the president, in charge, a program was given.

Mrs. J. W. Cassidy was chairman of the program, consisting of a review of Godey's Ladies Book.

The Marcella Club party last week was held Thursday in the home of Mrs. Gottlieb Vogeler on Edison avenue.

The ladies enjoyed games that afternoon, and the high scores were held by Mrs. Elvira King and Mrs. Frank King.

Miss Dorothy Steeklin, Mrs. Doris Meyer, Miss Eva Schuerger, Miss Lamoyne Pavia, Miss Margaret Recklin were co-hostesses to the party.

The Phi Tau Omega sorority Friday evening at the home of Misses Sue and Leona.

Miss Ann Pohlmann, president, was in charge and conducted a candlelight installation of two new members, Mrs. E. J. Johnson and Miss Mary O'Neil.

After the installation, the members spent some time at bridge and were later served some refreshments.

Mrs. J. T. Schill gave a party at her home, 339 State street, last week. The party was held at the home of Mrs. J. T. Schill.

In addition to the club members, there were guests from the city. The party was held at the home of Mrs. J. T. Schill.

Regular Reports By Justices Could Have Avoided Year-End Investigation

Slow and perhaps inaccurate financial reporting by justices of the peace appears to be at the heart of the situation that touched off an investigation by the state's attorney during the weekend.

If all justices had filed their reports and payments monthly, as they are required to do, the year-end or term-end problem would not have occurred.

Two contrasting situations have been spotlighted. In the case of Alton JP George M. Berry, all parties agree that about \$4000 is missing or incorrectly reported; Berry said so himself in a report to the county and state early this month.

In the case of former Quad-City JP Harry E. Hartman, there was a \$200 discrepancy which tabulations failed to reconcile. A further search is being made for the error. Other amounts have been paid, but more slowly than desired by the County Board of Supervisors.

A parallel between the two justices is that both are attorneys. It was hoped that lawyers had been difficult to corrupt on apparently better picture has changed once again.

But it is interesting to note that, no matter what remedial action is taken by the General Assembly, the Illinois House reapportionment failure already has gone down in history. And it will reflect unfavorably on our state.

Never before in any of the 50 states has the lack of a redistricting agreement gone so far. Never before have voters actually had to wade through lists of hundreds of names in marking their ballots for state representative offices. Yet this will be the case in Illinois in 1964 even if legislators somehow reach complete harmony on the "least worst" of the several alternatives facing them.

The upcoming elections may be subject of derisive laughter throughout the nation. Worse, it may result in outstanding lawmakers losing out to, in some instances, persons who are totally incapable of serving adequately. The situation is ripe for control of the election by machine or party.

One party or area may gain completely disproportionate representation. And voters will lose much if not all of their ability to express their actual preference.

Those who take actions contributed to the indefensible situation may be dealt severely by the same voters whose rights have been abused.

Here's to the woman who has a smile for every joy, a tear for every sorrow, a consolation for every grief, an excuse for every fault, a prayer for every misfortune, an encouragement for every hope.—Sainte Fox.

Theory is all right for the books, but it takes practical expression of ideals to make life better.

Winter Quarter Students At SIU, SWIU -- 18,247

Southern Illinois University's winter quarter enrollment has set another record, with 18,247 students registered on both the Carbondale and a Southwest campus.

Registrar Robert A. McGrath said the enrollment is an 11.4% increase over the winter term figure last year, and is up 37 students from this year's fall term.

It marks the second consecutive year the winter term registration topped that at the beginning of the school year.

The current enrollment includes 12,707 students on the Carbondale campus. The Southwest campus enrollment is 5,540.

McGrath said enrollment has been increasing at all student levels, the greater jumps occurring in senior and graduate student registration.

GOVERNOR KERNER REPORTS

PARTY SWEEPS WILL NO LONGER DEFEAT JUDGES

Besides streamlining our network of state courts, the new judicial article of the Illinois Constitution made important changes in the nature and election procedures for judges.

The most significant provision that incumbent judges run, not against an opponent, but against their records. Whenever there is a vacancy on the bench, however, there will be a nomination by party convention and elected in the normal way.

The article is designed to ensure that judges remain independent and free of partisan political pressures.

Two often in the past, competent judges were swept out of office simply because the political party under which they were elected happened to be temporarily in disfavor with the public.

Under the new system, incumbent judges who wish to stay in office must file a declaration of candidacy six months before their terms expire.

Their names then will appear on a separate ballot in the next election, without party designation. The ballot will ask voters whether or not the judge should be retained.

When a judge retires, dies or is defeated, he will be replaced by party ballot at the next general election.

The new election and tenure procedures apply to all judges in the state's three courts — Supreme, Appellate and Circuit. They do not apply to Circuit Court magistrates, who are appointed.

Full Term Required
All judges must devote full time to their judicial duties. Eventually, all must be attorneys.

The new judicial article adds an effective new weapon to control malfeasance among judges. The Illinois Supreme Court is empowered to order investigations of judges, who can be dismissed if found guilty of mis-handling their jobs.

In the past, a judge could only be thrown out of office through impeachment by the Illinois General Assembly, something which has never been done.

The result of these changes is that Illinois will have fewer judges and magistrates, but they will be better qualified and will operate in a more efficient judicial framework. The new system, which came into existence in 1960, has made the courts a model for the nation.

THE THYROID: BODY'S SENSITIVE PACEMAKER

Should your thyroid be arrested or speeded? Or should it be pepped up to correct for sluggish underactivity?

Because of its vital role in the growth and development of body tissues, the thyroid gland can create numerous health problems when it becomes either underactive or overactive.

Located just over the windpipe in the front portion of the neck, the thyroid gland is a butterfly-shaped organ that produces a highly-active chemical called thyroxine. As thyroxine flows through the blood, it regulates the rate at which body cells use energy and produce heat.

SMOKER FOR 46 YEARS PLANS TO CONTINUE

To the Editor:

The recent report on elegant smoking prompts me to write briefly on the subject. Please note that I would like to say in the outset that I have smoked cigarettes consistently for approximately 46 years.

I figure that I have puffed away on one million, seven hundred and fifty two thousand cigarettes of all brands and to my best knowledge and belief, I have suffered no ill effect. Therefore I am firmly convinced that all this fanaticism injected into a frenzy by certain people who conform to the great monolithic conspiracy who suffer from monomania.

I just don't believe that conscientious medical doctors who, incidentally, by large numbers, smoke cigarettes themselves, can or do endorse restrictive measures to curb cigarette smoking. Especially, since so many medical men have pinpointed many respiratory diseases to air pollution in our large cities. It really gives me a scare when I hear of so many doctors who breathe in so many noxious gases which are breathed into the lungs.

In closing, I would like to make this public statement — that I have no intention of giving up my cigarette. I would advise you to do as you please relative to this fanatical report.

MAYOR SHOULD PRESIDE AT COUNCIL MEETINGS

Readers are invited to contribute to this column. Name and address are necessary for return of material. If possible, please include a return address. Letters should be 250 words or less.

Interest in city matters, since he may retire.

He did show interest when he ran for another term. I feel he should be penalized in some way for not attending Granite City council meetings; he's no better than our aldermen. Come on, aldermen, make some rules for his attendance at council meetings.

How can city business be properly taken care of without his attendance? It's the mayor's duty to the city and people to attend the council meetings and conduct our city business in proper manner.

Maybe it's not the mayor's fault. It could be the aldermen's fault. If you don't agree with him, I can't tell you why. I'll stay home.

MEDICAL AID LINKED TO NEED BEING VETOED

To the Editor:

I have just received via air mail the minority report on the status of the Kerr-Mills medical aid bill. The majority proposed of Democrats, has downgraded the bill as inadequate.

The bill eliminates those that do not rate medical care, namely those that own a car, a house, a piece of land, a block of major stocks. They could well provide ample hospital and accident insurance themselves.

A large number of social security recipients are in the bracket. However, they are of the belief that if it comes from the child some day, they get it for nothing.

Senators Dirksen, Goldwater and Carlson, emphasizing the nation's preference for voluntary health insurance supplemented by state aid, have introduced programs, described the majority report as almost inconceivable.

It is evident that Kerr-Mills with reference to other public programs or to lackadaisical administration attitudes that slow down the progress of the bill. The bill would supply much-needed medical care to those who cannot pay for it.

The major problem is Democratic state governor vetoes against legislative appropriations.

passed to supplement this bill.

Must all bills of our national Congress be labeled Democratic-sponsored to become national law? If so, we are a dictatorship.

Our constitution was set up as a republic, not a kingdom. But we have failed to keep it that way.

I and my family do not need state aid. I have no major home problems in Granite City; neither do my children in the child some day.

Farm Column

By TRUMAN W. MAY
Madison County Farm Adviser

With the coming of the new year, take a long look at your pesticide storage. The pesticide safety season is never over.

For your own peace of mind and your family's safety, clean up your premises and store all pesticides in a safe place—away from children and pets. A well-organized place for storing chemicals will prevent frustrations when the farming and gardening season gets under way this spring.

All too often, the pressurized fly spray bomb may still be under the kitchen sink, the package of spray materials may still be on the floor of the garage and your sprayer or duster may still contain pesticide.

Don't overlook empty containers. They may contain just enough pesticide to cause trouble.

Dispose of containers to prevent children and pets from playing with them. Take large numbers of such containers to a sanitary land fill operation.

Don't use metal containers for any other purpose after they've held pesticides. And before you dispose of them, damage them so

that they contain no liquid. If you burn the containers, avoid all exposure to the smoke.

A county swine school is scheduled for Madison county hog producers, to be held Feb. 1 and 11.

This school is designed to cover all phases of modern-day swine production, including feeding, selection, buildings, equipment, health, costs and returns.

University of Illinois extension specialists in livestock, farm management, agricultural engineering and veterinary medicine will serve as instructors.

Harry G. Russell, livestock extension specialist, Don Jedele, buildings and equipment specialist, and D. E. Erickson of the agricultural economics department will provide the latest information on each phase of the swine enterprise. There will also be several other speakers.

Beginning on Feb. 4, the school will be held at the Farm Bureau building, Edwardsville, in four sessions, morning and afternoon Feb. 4 and 11, from 10 a.m. to 3 p.m.

You may enroll by sending your name to the farm adviser's office. A registration fee of \$2 will be charged to cover the costs of a reference information binder and other materials used in the school.

Horseshed Problems

At the first session of the annual two-day Vegetable Growers School the morning of Tuesday, Jan. 28, horseshed production problems will be discussed, with the 1963 variety trials, breeding results and horseshed disease reported by J. W. Courter, A. M.

Dairy Calf Sale

Preparations for the annual 4H Club-FFA dairy calf sale to be held Feb. 8 at Highland by the Madison County Holstein Club are being completed. The calves in the sale will be pure bred Holsteins, all from dams

with production records of at least 400 pounds of butfat per year, from well-known Holstein herds in this area.

Dairymen consigning calves to the sale are Wilbur Federer, Alhambra; O. J. Polcher, Pocahontas; Ronald Henke, Staunton; Elmer Klenke, New Douglas; Joe and Ed Fessler, Dow; William Tracy, Jerseyville; Leo and Carol Lee Day, Jerseyville; Lautenschlager Bros., Mascoutah; Clinton Beckmeyer, Carlyle; James Richter; Harry and Neal Turley, Greenville; Walter Unverferth, Hoytston; Leland Steiner, Highland; and Burnell Weinheimer, Highland.

The auctioneers, who donate their services, will be Harold Hillard, Greenville, Edward Ahrens, Staunton and Walter Holford, Edwardsville. Wilbur Boyd of Carlyle will read pedigrees and Vernon Hiltz of Highland will be spokesman.

The standard pasture mixture of beef cattle and sheep at the Dixon Springs Experiment Station of the University of Illinois was given at the county Agronomy Day by George McKibben of the station staff. The seeding per acre consists of orchard grass seven pounds, alfalfa eight, red clover four, ladino one and lespedeza, five pounds. This mixture has been used at Dixon Springs for a number of years with excellent results.

It is a somewhat heavier seeding than is generally used in this area. The lespedeza is added chiefly as insurance against dry weather, as it is more drought-resistant than the others.

Reservations are being received from 4-H club leaders for a tractor and auto project clinic at Springfield Jan. 30 and 31. First reports in the Dairy Weigh-Day last week were received from Lutiz Martin, Alton; Roy Marti, Highland; and Ronald J. Rat, Pocahontas.

Feed Grain Sign-Up Will Begin Feb. 10

Lee Rogers, office manager of the county Agricultural Stabilization and Conservation office, announced today that sign-up for the 1964 feed grain program will begin Monday, Feb. 10 and end Friday, Mar. 27.

Notices will be mailed to all feed grain farmers on Jan. 23, Rogers said. These notices will inform the farmer of his acreage, yield, payment rates and conserving acre requirement.

Rogers reminds farmers of the 15-day appeal period, if they wish to appeal any of the information contained in the notice. This means, he said, that any appeal must be received in the county office by Friday, Feb. 17, in order to be eligible for consideration by the county committee.

Information meetings on this new program will be held throughout the county during February, and all farmers are being urged to attend. Sign-up will be conducted at the county ASCS office, 110 North Main street, Edwardsville.

Rogers reminded feed grain farmers to watch the mail for their notice and not mistake it for some advertisement circular. When received, the notice should be placed in a safe place, because it contains valuable information for farming plans, he said.

Monetary and honorary awards will be granted to qualified semi-finalists who attend approved colleges or universities within the state. Recent legislation has increased the maximum monetary award to \$750. Honorary awards are granted when financial need does not exist. All awards are renewable.

In recognition of outstanding achievement, Certificates of Merit are given to all state scholarship winners, including those who forfeit further consideration by their choice of an unapproved or out-of-state institution.

**Snow Removal
Cost Nearly \$700
In Nameoki Twp.**

Bills totaling \$691 for the Jan. 12-13-14 snow removal from roads in Nameoki township were approved by the town board of auditors Monday night.

In the absence of Supervisor Harry Briggs, the presiding officer was Town Clerk John Karleick Jr.

Praise for the job was given Highway Commissioner Charles Hanks by Thomas Stalcoff, president of the village of Pontoon Beach. Stalcoff wrote in a letter to the board that the sincere dedication of Hanks and his crews kept the streets clear in the village and throughout the township.

In addition to his staff of three regular workers, Hanks hired seven men. He rented equipment from the Wilbur

Waggoner company to remove snow and drifts along Bend road. All three township trucks are equipped with snow blades and the township grader also was in operation. Two men mopped telephones at the township office-parage to handle messages.

Of the \$691 total, \$459 was for salaries, \$136 for equipment rental, \$18 to replace a broken truck axle, \$69 for gasoline and \$9 for diesel fuel for the grader.

During the brief meeting, it was reported the Federal Housing and Home Finance Agency, Chicago, has not yet completed the township's application for a \$15,000 preliminary planning grant for a township-wide sanitary system.

Committee To Meet

The new tourist promotion committee of the Tri-Cities Chamber of Commerce will meet for the first time at 3:30 p.m. today in the C. of C. office, it was announced by chairman William H. Thoeke.

53 Attend Joint Meeting Of Area Doctors, Lawyers

Fifty-three local physicians, surgeons and attorneys gathered at the Sunset Hill Holiday Inn Tuesday evening for the second annual joint dinner meeting of the Tri-City Medical Society and Tri-City Bar Association.

Principal speaker was William H. Pedrick, professor of law at Northwestern University, Evanston, Ill., who related humorous anecdotes and also stressed the importance of advance estate planning by professional people.

Ernest A. Karandjef, president of the Granite City Trust & Savings Bank, welcomed the group on behalf of the bank, sponsor of the event.

Dr. B. B. Berman, president of the medical organization, gave the welcoming remarks and introduced Donald B. Hayes, Trust & Savings Bank trustee who introduced Professor Pedrick.

Those at the head table included Leo H. Konzen, Bar Association president.

City Wants Bus Route Through Anchorage

Bus stop benches and a bus route through Anchorage Homestead for the elderly were discussed briefly Monday night by Granite City council members.

A proposal for the bus stop benches with advertisements was referred to the city attorney to determine legality, and the city attorney also was asked to confer with officials of the Bi-State Transit System on the possibility of routing a bus through Anchorage.

Alderman Gabriel Betts said she had received a large number of requests for the route from residents of the housing project.

Parking restrictions along 21st street were requested by Alderman of the Second Ward. It was recommended that a no-parking zone be established on the north side of 21st street from Madison avenue east to the emergency room driveway at St. Elizabeth Hospital, and that the area between the two emergency room driveways be reserved for police vehicles. Also on 21st street, a two-hour zone is being sought on the north side from Washington avenue west to the alley.

\$143,000 County Sales Taxes In 10 Months

Following a 1963 monthly peak of \$17,388 for September, the Illinois Department of Revenue has announced \$13,853 October sales tax income for the Madison County treasury.

The reports since mid-year reflect those paying the half-cent unincorporated area tax on a monthly basis, plus some quarterly returns in September.

For the first ten months of 1963, the tally is \$143,692, compared to \$137,066 in January-October 1962 and \$168,187 for all of 1962. Since the tax went into effect Oct. 1, 1960, the county has received \$836,123.

The tax is paid to the state, which returns it to the counties after deducting 4% to meet administrative expenses.
